

CITRIX for Students

Many courses taught at SRU involve extensive use of application software. This software can be expensive and may only be available in a single laboratory on SRU's campus. In addition, classrooms/labs are open and available to students only a limited number of hours. The typical college student is busy during many daytime hours taking classes and working. Often, it is difficult for students to be in a lab that is open a limited number of hours. Thus, lab hours limit the amount of time they have to study, practice and complete homework for their courses. Through Citrix (<https://slipperyrock.cloud.com>), a Campus Software Access System, Slippery Rock University has made many software applications available via centralized servers for access both on and off campus, 24-hours-a-day, seven-days-a-week at no cost to students. As new titles are purchased on campus they will be evaluated for access through Citrix and this list will expand. **NOTE: professors must request access to these resources for the students in a major or course by submitting a work order at techsupport.sru.edu. If a student is a late admit to a course, the faculty member must submit a work order requesting access for the specific student(s).**

As of 11/2023, current CITRIX software includes:

- Microsoft Office suite (primarily utilized by Apple users)
- Microsoft Project
- Microsoft Visio
- SAS
- SPSS
- Stata
- Commspoint Stukent
- SolidWorks
- Microsoft Visual Studio

ACCESSING CITRIX LIGHT VERSION (Does **NOT** work with Safari)

1. Navigate to <https://slipperyrock.cloud.com>
2. Sign-in using your SRU email address and password.
3. On the next page select "Use light version"
4. Expand the App Menu on the left side of the page, select "All Apps", and then click on "IBM SPSS" or desired application
