Public Comments

Ms. Rachel DeWolf and Mr. Dan Cannon, representatives from a student initiative called the Green Fund provided to Council an overview of the group’s objectives. Currently, the group has established a foundation account for campus and community initiatives with a portion of the funds designated for research grants and scholarships. The group plans to initiate a student referendum vote for the purpose of establishing a student fee of $5 per semester. The money generated would be used toward sustainably-progressive programs, such as upgrades, educational programs and events, research grants, and scholarships.

Mr. Robert Taylor urged the students to visit the Regional Learning Alliance in Cranberry, PA. This facility is a state-of-the-art green building in Western, Pennsylvania.

Mr. Larry Brink, president, Student Government Association presented a report of SGA activities since the December Council meeting. Larry indicated there were several projects completed by SGA this past semester including the daunting task of rewriting the constitution and by-laws. This was an extensive project, but important to complete. Also created was a 16-page document to implement new rules in the budgeting process to ensure that budgeting is a student-run process.
The student union referendum brought an overwhelming response from our student body to construct a new union. SGA endorsed the building of the new union and we’re excited the Board of Governors responded by approving the request and moving the project forward.

SGA has commissioned adding a second happy bus for next year that will focus on student resident areas off-campus. SGA continues to urge students on campus to walk to classes. With the addition of a shuttle and more refined pick-up/drop-off schedules, we hope to better serve students and alleviate the apparent concern from some about parking on campus. The group also assisted the Green Fund students with preparing a student referendum for the Green Fund initiative.

The SGA Student Pavilion is being constructed and we are hopeful that construction will be completed very soon in order for students to enjoy the structure before they leave for the semester.

Larry Brink introduced his SGA Executive Board: Carol Watters, vice president for Student Life, Erin Berger, vice president for Financial Affairs, T.J. Harlan, vice president for administrative affairs, and Tyson Johnston, vice president for Public Relations. The executive board continues to set and meet goals that make SGA more accountable and more extensive on campus.

Student Life Committee

Dr. Constance Foley, vice president for Student Life, provided the report of the Student Life committee in the absence of Mr. John Thornburgh, chair.

The Division of Student Life was actively involved in facilitating programs and services for the spring semester to support ongoing programs and services to all students at SRU, provide a safe and healthy environment, and continue the leadership development of all students. The highlights of these activities include:

- Contracts were awarded for the Boozel renovation project, which is scheduled to begin after the close of the spring semester.
- Work continues on the submission of the Student Union project for the April Board of Governors’ meeting. Coordination meetings were held with future constituents of a new Student Union to provide input regarding the programming needs and requirements for a new facility.
- The SGA received a $5,000 grant from Pittsburgh 250 for a Green and Growing Initiative. This will augment the tree planting initiative shared between SGA and the University. IT will also go to the Green bike Initiative.
on Campus. Both parts of the grant support the environment and use of limited natural resources.

- SRU/SGA Pre-School and Childcare Center received an additional allocation from PreK counts in January for an additional five students to participate in early learning. This grant was for approximately $16,000 and allows us to offer additional student work and learning opportunities in the center. This program is a state-wide initiative involving many collaborations and partnerships but directly impacts the community and educational early learning opportunities. We have also met and collaborated with the Slippery Rock Elementary School to continue our transition of preschool to kindergarten planning.

- The Counseling Center has been busy completing their Council for the Advancement of Standards in Higher Education (CAS) self-study in preparation for their Five-Year Review. The review will culminate in an external review, scheduled for April 14, 2008.

- The Women’s Center and Athletics department collaborated on the first National Girls and Women in Sports Day held at SRU. Coaches and women student-athletes held a sports clinic for young girls. Women student-athletes were recognized during halftime of a women’s basketball game with a reception to further honor the athletes held following the game.

- A decision was made to allow swimming and water polo to participate in one additional full season of their respective sports. Water polo will conclude after their spring 2008 season and swimming will conclude after their 2009 season. A meeting to communicate this decision was held with coaches, teams, etc. on February 8, 2008.

- The King Day of Service Committee sponsored the fifth annual King Day of Service with over 300 campus community volunteers participating in the activities of the day.

- SRU student-athletes performed well in the classroom during the fall 2007 semester with 138 attaining Director of Athletics Honor Roll status: 46 student-athletes attained a 4.0 QPA, 47 attained a 3.75-3.99 QPA, and 45 attained a 3.5-3.74 QPA.

- On February 19, 2008, during SRU’s Professional Development Day, Dr. Susan Komives presented a session to Student Life staff on “Student Leadership Theory and Practice.” Dr. Komives is an Associate Professor at the University of Maryland-College Park and is a Learning Reconsidered contributing author.

- The annual Student Leadership International Trip took 16 students to Rome during spring break as part of the leadership development program. Three staff members accompanied the students on their travel which took them to many interesting and educational places of interest, including John Cabot University. SRU students had an opportunity to visit and talk with John Cabot student leaders and staff as part of their leadership experiences.

The program will go to the Board of Governors next week for final approval.

At the same time, the Adapted Physical Activity Program (minor) has been awarded the Adapted Physical Activity Outstanding Program of the Year for 2008 from the American Alliance for Health, Physical Education, Recreation and Dance’s Adapted Physical Activity Council.
