OPPORTUNITY, CONVENIENCE, ENVIRONMENT

Summer School at Slippery Rock University offers the opportunity to study in a relaxed environment. A reduced workload permits you to explore topics of interest more fully. Most importantly, whether you enroll in credit courses from our regular academic offerings, attend credit workshops designed to augment our curriculum or take advantage of the non-credit programming, you will be taught by a faculty member with a passion for teaching and concern for you - the student.

The Campus. Slippery Rock’s rolling, tree-lined campus spreads across more than 600 acres, with woods, streams, ponds and wide-open spaces. Thirty major buildings, blending traditional and modern architecture, fill the core of the campus for an optimum living and learning environment. The University’s Advanced Technology and Science Hall opened in 2006. Housing state-of-the-art classrooms, labs and a 350-seat lecture hall, this facility is equipped with the latest wireless technology. The modern Bailey Library ranks as one of the best in the state, among both public and private institutions with more than 700,000 catalogued items and a seating capacity of more than 800, including 250 individual study carrels. The School of Physical Therapy Building houses one of the best doctorate in physical therapy programs in western Pennsylvania and Swope Music Hall is designed as both a performing and a learning center. The recently renovated Vincent Science Center houses, in addition to laboratories and classrooms, a planetarium and greenhouse. One of the busiest institutional and recreational facilities on campus is the Aebersold Student Recreation Center (see page 9), which includes gymnasiaum, a swimming pool, an indoor track, fitness center and climbing wall. Besides standard classroom buildings, the University has modern computer facilties, a television studio, a radio station, two state-owned residence halls, one apartment complex and six privately-owned residential suite buildings, seven auditoriums, 12 tennis courts of which six are lighted, three major athletic fields and nine auxiliary fields, a 9,000 seat stadium and two dining halls. The Smith Student Center opened in Summer 2012 and is the campus hub with a bookstore, grille, recreation areas and meeting rooms.

Location. Set in western Pennsylvania, the University is easily accessible. Pittsburgh is an hour drive south, Erie is 75 miles north and Youngstown, Ohio, is just 35 miles due west. Two major interstate highways, I-79 and I-80, intersect within 10 miles of the University.

REGISTRATION AND PAYMENT PROCEDURES FOR SUMMER 2018

Registration for all summer session classes will begin April 2, 2018. Some very important changes have been made in registering procedures. Please read the following information carefully.

Students wishing to register for summer courses may do so without registering for fall courses. While not required to do so, students are urged to get their advisers’ signatures on their summer registration forms.

CLASSES BEGIN ON THE FIRST DAY OF EACH SESSION. Registration must be completed before the drop/add deadline of each session.

An initial summer school billing will be uploaded to students’ MySRU in April, with a May 2018, due-date. Additional account statements will be updated on MySRU after the drop/add period for each summer session, with a due date identified on each eBill. As in previous years, students may obtain a registration form from the Office of Academic Records and Registration, Room 107 Old Main. MySRU will also be available for use in scheduling summer classes. Once the drop/add period for a session has ended, students will no longer be able to schedule for that session via MySRU and must go to the Office of Academic Records and Registration.

The University will not cancel summer classes for nonpayment. Students are responsible for dropping from any/all courses they do not attend. Students may not drop their last class using MySRU. To do so, they must contact the Office of Academic Records and Registration at 724.738.2010. Students must follow University procedures in withdrawing from courses or will be responsible for payment of tuition and fees for those courses. Holds will be placed on students not paying for summer courses and they will not be able to register for subsequent semesters until the balance is paid.

Undergraduate students may register for summer classes on or after the date and time appearing on MySRU in March. Summer registration may be completed by using MySRU.

Students who wish to take a course on an optional Pass - No Credit basis should contact the Office of Academic Records and Registration. Slippery Rock University students repeating a course previously taken must also register through the Office of Academic Records and Registration.

Graduate and post-baccalaureate students may register for summer on April 2, 2018, or thereafter. Graduate students enrolled as recently as spring 2017, will receive information for registering via their SRU email account.

Special and Transient students may register for summer April 23, 2018, and thereafter. Special and transient registration for fall will not occur until July 2, 2018.

EARNING TWO DEGREES OR TWO MAJORS

POLICY

Effective May 2009, the Board of Governors of the Pennsylvania State System of Higher Education set minimum standards for students wishing to earn two different UNDERGRADUATE DEGREES at a single commencement ceremony.

To earn two different Baccalaureate degrees at the same commencement ceremony, students must complete a minimum of 150 credits and all the academic requirements of both degrees.

Additional Clarification: Two Degrees

• Students may not earn two identical degrees (BS and BS) regardless of the number of credits earned.
• Students wishing to earn a Bachelor of Arts degree, whether it is associated with their first or second major, must complete the University's modern language proficiency requirement at or above the 103 level.
• Students must complete the Liberal Studies requirement associated with the first degree.
• Students earning two different degrees (BS and BA) will be awarded two diplomas.

Additional Clarification: Two Majors

• Students may still earn two MAJORS and one degree. To earn two majors, students must complete at least 120 credits and all the academic requirements of both majors. This means students selecting a second MAJOR that is offered in association with a Bachelor of Arts degree will NOT have to complete the University's modern language requirement. See Second Baccalaureate Degree section of the undergraduate academic catalog.

Additional Clarification: Second baccalaureate Degree

• Students wishing to earn a second baccalaureate degree after graduating should refer to the Second Baccalaureate Degree section of the Undergraduate Academic Catalog.

FULL-TIME STATUS

Undergraduates must be enrolled for at least 12 semester hours (excluding “W” grades) to be considered full-time. Graduate students must be enrolled for at least nine (9) semester hours.

**PUBLIC NOTICE OF RIGHTS UNDER THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT**

The Family Educational Rights and Privacy Act affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.

   Students should submit to the Director of Academic Records and Registration, dean, department chairperson, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the requests were submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.

   Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading.

   If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request or amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Council of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

   A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University may disclose education records without consent to officials of another school in which a student seeks or intends to enroll, or where the student is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer.

4. As of January 3, 2012, the U.S. Department of Education’s FERPA regulations expand the circumstances under which your education records and personally identifiable information (PII) contained in such records—including your Social Security Number, grades, or other private information—may be accessed without your consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities (“Federal and State Authorities”) may allow access to your records and PII without your consent to any third party designated by a Federal or State Authority to evaluate a federal or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education,” such as early childhood education and job training, as well as any program that is administered by an education agency or institution. Second, Federal and State Authorities may allow access to your education records and PII without your consent to researchers performing certain types of studies, in certain cases even when we object to or do not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive your PII, but the Authorities need not maintain direct control over such entities. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without your consent PII from your education records, and they may track your participation in education and other programs by linking such PII to other personal information about you that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

CLASS ATTENDANCE

Traditionally, attendance policies for individual classes have been determined by the instructor and communicated to the class at the first meeting.

As a university, however, we believe that class attendance, preparation and participation are integral components of student success. It is unusual for a student to be successful in a course without attending, preparing and participating regularly.

Therefore, we strongly encourage you to attend every class every day, to spend at least two hours in review and preparation for each one hour in class, and to participate fully in all aspects of the course.

ACT 48
What is Act 48 and who is affected?
Act 48 requires all Pennsylvania educators holding Pennsylvania Public School Certification including Intern, Instructional I and II, Educational Specialist I and II, Administrative, Supervisory, Letters of Eligibility and all vocational certificates to participate in ongoing professional education.

What are the requirements under Act 48?
All professional educators must obtain six credits of collegiate study; six credits of continuing professional education courses; 180 hours (6/6/180) of continuing professional education programs, activities or learning experiences; or any combination of credits or activity hours equivalent to 180 hours, every five years for all types and areas of certification to maintain active status. One credit equals 30 activity hours. All credits and activity hours must be related to an educator’s certificate type or area of assignment. The administrator may approve exceptions if a change of assignment area is anticipated.

PDE changes or modifies these policies at their discretion. The most up to date requirements can be found at: http://www.education.pa.gov

PHILOSOPHY

Philosophy of Science Fiction (PHIL 395)

Many philosophers, science fiction writers, and directors concern themselves with attempting to understand the mind, time travel, artificial intelligence, enhancements, virtual reality, and persons. This workshop draws on a broad range of books, films and television series, including The Matrix, Blade Runner, Frankenstein, Brave New World, The Time Machine, and Inception to better understand these issues as they have been explored by philosophers, authors, and directors. This workshop will specifically focus on the recent show Stranger Things. This workshop considers classic philosophical puzzles while discussing their implications for contemporary moral issues, including cybersecurity, privacy, and civil rights.

This workshop is appropriate for anyone who is curious about these issues, including those who have little to no formal philosophical training. Participants will be introduced to various philosophical thought experiments, which are illustrated in film and fiction, to then formulate stances on such issues dealing with space, time, and, ourselves. Freshman and Sophomore 1 students can enroll with instructor permission.
