

I am The ROCK

Deborah Andrews

Job: Clerk typist II, biology.

Joined SRU: 1990.

Background: I started part time in continuing education, moved to orientation, minority affairs and social equity. For the last 13 years, I have been in the biology department. I have played many roles at the University. For two years, I was adviser for the SRU Gospel Choir and have been a 'mother' to those who are away from home.

Interests: I love to play the piano, sing, dance and be happy. I love a parade, baton twirling, drums and of course I love the SRU Marching Band.

Person I'd like to have dinner with: Actor and director Tyler Perry. He is very funny, but in all of his plays and movies he leaves you with a good strong message.

Why I work at The Rock: I work at The Rock because I have met a lot of beautiful people, and it is such a good feeling to see those students come in as freshmen not knowing what they want to do or they are doing what mom and dad want them to do and four years later they are walking across the stage getting their degree. I love to talk, listen and help students, faculty and staff as much as I can.
