

I am The ROCK

Eric Dittmer

Job: Management technician for physical education/athletics. I manage the Physical Education Equipment Room in Morrow Field House known as the 'Cage.' I handle daily equipment requests from students and faculty. I oversee laundry for 10 of our athletic teams, and I manage game-day operations.

Joined SRU: 1998.

Background: I joined SRU after 16 years with General Motors working in GM Information Systems and Communication Activities/Vital Records.

Person(s) I would like to have dinner with: Mario Lemieux because I admire both his business sense and his commitment to ice hockey.

Why I work at The Rock: I originally accepted employment in the athletic department at The Rock because of the opportunity to work with and be associated with young people. This has never been a disappointment. Whether working with our student athletes, the general student population or other faculty and staff, I have found my time at SRU to be fulfilling and rewarding.
