

I am The ROCK

Cheryl Dolan

Job: Secretary for the departments of chemistry and physics.

Joined SRU: June 1998. I worked previously as a temporary in the purchasing department and printing department before being hired full time in chemistry and physics.

Background: I was born in New Castle. I graduated from Wilmington Area High School and Youngstown State University. Before joining SRU, I worked as an administrative assistant in an accounting firm in Grove City. I live in Grove City with my husband, Dennis. My daughter Emily, who graduated from Slippery Rock University in 2010, just graduated from Syracuse University with her master's degree in communication.

Interests: Sewing, gardening, home decorating and reading.

Person(s) I'd like to have dinner: Dan Amernick, one of the writers for the television series 'The Nanny.'

Why I work at Slippery Rock University: I like interacting with the students and helping them, and I like the friendly atmosphere at SRU. I enjoy working with the faculty in the chemistry, physics and pre-engineering departments. The faculty members in both departments are great: They assist in making my position enjoyable and exciting.
