

I am The ROCK

Herbert Hunt

Job: Assistant professor elementary education/early childhood development.

Joined SRU: Temporary faculty 2000, full-time faculty 2002.

Background: I graduated from Slippery Rock University with a bachelor's degree in elementary education in 1972 and received my master's degree in education from SRU in 1976. My doctorate is from The University of Akron, 1979. I have spent 32 years in public education, including 19 years in administration and three years teaching at Youngstown State University.

Interests: My family, my children and grandchildren, being involved on the family farm and enjoying the outdoors. I also like music.

Person(s) I would most like to have dinner with: Warren Buffett. He is a man who thinks outside the box and sees positive things where others see the negative.

Why I work at The Rock: After 45 years in education, I still find it rewarding to help people find their way in life. If I can make a positive impact on future teachers I know they will have a positive impact on their students and the world will be a better place. Teachers have the power to change the world. To see former students who are happy and successful in life – there is no greater reward.
