

I am
The ROCK

Sharon Isacco

Job: Manager of Printing Services.

Joined University: 1968. I worked here from 1968-1970, 1972-1975 and 1980 to present. That's a total of 33.6666 years (not that I'm counting).

Background: I started as a secretary to biology, geology and geography. I also worked in cataloging at the library for a couple of years. In 1990, I accepted the position as supervisor of word processing. I transferred to Printing Services in 1996. I also took classes in computer science and accounting here from 1981 to 1996.

Interests: I like crocheting, sewing, quilting, gardening and watching my grandchildren play sports. I also do rescue animal transports as well as foster rescued Yorkshire terriers.

Last book read: 'Heirloom Machine Quilting: A Comprehensive Guide To Hand-Quilted Effects Using Your Sewing Machine' by Harriet Hargrave.

Why I work at The Rock: I love it here. In 1968, I started as a secretary so I could save enough money to go to beautician school. In the first year, I was hooked. I love the diversity and the wealth of knowledge that you find here. I was also able to take classes and further my own education while working here. I can't imagine working anywhere else.
