

I am The ROCK

Julie Lutz

Job: Clerk Typist III, Office of Admissions.

Joined SRU: 1982.

Background: I started at Slippery Rock University in the College of Arts and Sciences during the month following my high school graduation. I then worked in theatre, modern languages and cultures and the Office of Residence Life. I have worked with transfer students in the Undergraduate Admissions Office for the last 26 years.

Person(s) you'd like to have dinner with: Bessie Houk Brown, my great-grandmother who attended Slippery Rock State Normal School in the early 1900s.

Why I work at The Rock: It is exciting to work in undergraduate admissions and talk with prospective and current students as they plan their educational path for their future careers. I enjoy working with other staff members to help students have a positive experience as they transition to SRU. Working at SRU has given me many opportunities. I am fortunate to have the flexibility to work different schedules over the years that allowed me to spend valuable time with my children when they were younger, and I am now proud that both of my children are SRU graduates.
