

# I am The ROCK

## Sharyn McGallis

**Job:** Clerk typist III for the Office of Student Development and the Smith Student Center Operations Office.

**Joined SRU:** 1984.

**Background:** When I started at SRU in 1984, I worked in the Admissions Office. After 13 years, I took a position with the Residence Life Office. My final move was to the Office of Student Development, where I also started to work for University Operations, which is now Smith Student Center Operations.

**Interests:** I enjoy traveling, camping, kayaking, hiking, biking – just about anything outdoors. My husband and I just went cave repelling for the first time this past weekend and, even though it was scary at first, we had fun. I also really enjoy hanging out with my family, which is pretty large and can be quite entertaining at times.

**Person (s) I would like to have dinner with:** Lucille Ball and Bob Hope. They made the world laugh.

**Why I work at The Rock:** You find very interesting people here on the SRU campus and all are working together to make the University experience the best possible for our students, and that makes coming to work easy. Also, working at SRU has given my family and me the chance to take advantage of significant opportunities for educational, professional, personal and cultural growth. What I have learned at SRU and from those I have worked with has definitely made me a better person.
