

I am The ROCK

Susan Patton

Job: Management technician, Payroll Office.

Joined: 2005.

Background: I have always lived in western Pennsylvania, spending 20 years in Erie after receiving my associate's degree in business from Erie Business College. I returned to the Slippery Rock area to accept the job in the payroll department.

Persons(s) I would like to have dinner with: Authors C.S. Lewis, Madeline L'Engle, A.A. Milne, Jane Austen, Helene Hanff and Beatrix Potter because they have all shaped my life in different ways.

Why I work at The Rock: I first came to SRU for an opportune career change. I have stayed because of the wonderful atmosphere and environment. I enjoy helping students navigate what is often their first work experience, and hope they leave my office knowing there is someone here to help. Working with the staff and students at SRU has added value to my professional work experience.
