

I am The **ROCK**

Debra Pincek

Job: Assistant to the vice president, student life administration.

Joined SRU: March 1977.

Background: Bachelor's degree in education, food and nutrition from Indiana University of Pennsylvania, master's degree in student personnel from SRU. Prior to coming to Slippery Rock University, I worked in the dietary department of a health care facility.

Interests: Music, books and cooking.

Last book read: 'Extreme Measures' by Vince Flynn.

Why I Work at The Rock: George Boozel hired me to manage Boozel Dining Hall, then known as 'Dining Hall II'. Over the years, I have managed a number of different service areas on campus, but my responsibilities have always included the dining services operation. I like the college environment. I like the challenge of providing quality services to the campus in a changing environment. I enjoy the people that I work with and the students. Often, I am the behind-the-scenes person helping people provide quality services to the campus and I hope that what I do contributes to the great experience of Slippery Rock University.
