

I am The **ROCK**

Patti Pink

Job: Secretary for the department of health and safety.

Joined SRU: 1986.

Background: I am home grown to this area...born, raised, married, have always worked and will probably die in Slippery Rock. I married my high school sweetheart (over 35 years now) and have two grown daughters and six beautiful grandchildren.

Interests: I enjoy spending time with my family and friends. Scrap booking is something I truly enjoy, especially when the weather starts to get cold. I have also recently begun taking piano lessons.

Last book read: 'New Moon' by Stephanie Meyer.

Why I work at The Rock: I enjoy working at Slippery Rock University because I have always been a 'people person.' SRU provides an array of opportunities to meet many interesting people. Some of my dearest and closest friendships have been formed here with co-workers and students. I began working at the University in the Admissions Office as a temp, then went to special education to work under a grant as a temp and continued on as a temp for advancement and annual giving. I worked in word processing, which was in Old Main but no longer exists, and remained there for 11 years until joining the department of health and safety in 1999. I have enjoyed each and every position.
