

I am The ROCK

Michael White

Job: Technology applications coordinator in enrollment services.

Joined SRU: 2002.

Background: I am a Pittsburgh native married to a beautiful 'Nuyorican' – a New York Puerto Rican. We have five multi-talented and very successful children. On a personal level, my hobbies are personal fitness, reading, listening to music and watching action and quirky movies.

Person(s) I'd like to have dinner with: I would like to invite these individuals to my home for a rib dinner picnic: one of the most influential persons in human history, Jesus Christ; Martin Luther King, Jr. – he goes without saying for me; and Rene Descartes – he is one of my favorite philosophers.

Why I work at The Rock: I have worked at Slippery Rock University longer than any of my previous institutions. It's a pleasure to be a part of this professional community and work with such warm and gracious people. In spite of my commute to and from Monroeville, I have enjoyed working here. I have been afforded many opportunities to grow because of the professional and personal relationships I've developed.
