Park and Resource Management
Master of Science
College of Health, Environment, and Sciences

Program Description
Promote and protect our natural heritage, advance your career, and do something you love. Slippery Rock University’s Master of Science program in Park and Resource Management make your goals possible. The program is designed to meet the diverse needs of practitioners in the field of parks and conservation while preparing individuals from diverse backgrounds for a career change. This graduate program is designed to meet the needs of:

- Park managers
- Environmental educators
- Park rangers
- Park interpreters
- Resource management specialist
- Outdoor recreation planners
- Recreation directors

The program can also accommodate those students wishing to change fields by providing graduates with a sound base in:

- Ecological understanding
- Planning
- Management theory
- Practical solutions to educating about the environment
- Nature and cultural resource and visitor management challenges
- Recreation and resource management issues generated from the social, economic, and political scene

Program Highlights
SRU’s online Master of Science degree in Park and Resource Management offers:

- Flexibility to fit your busy schedule with classes taught exclusively online and no campus visitation is required.
- A 30-credit hour program that can be completed in two calendar years. Two classes are taught each semester over a two-year period, two in each fall and spring.
- A program with a proven track record.
- Courses taught by University faculty with many years of experience.
- Coursework that focuses on theory, practice, and application.
- Internships can be attempted after having completed at least 18 credits in the program.
