About the Program

The RN-BSN Program at Slippery Rock University is designed exclusively to meet the needs of Registered Nurses completing the professional component of their education. This transition involves development of independent and critical thinking skills for clinical decision-making, preparation to collaborate in multidisciplinary work, shifting focus from care of individuals and individuals within a community to the health of a community, refining professional communication, and developing beginning leadership skills. Graduates are prepared with team skills and technological savvy to provide leadership in today and tomorrow’s managed care environments in both inpatient and community settings.

The baccalaureate degree provides the professional foundation for your nursing career. The BSN provides the knowledge and skills for advancement in clinical ladder programs and flexibility in career choices within the nursing profession. The BSN is also a base for graduate education.

Undergraduate Degree Option:
• RN-BSN Education

Graduate Degree Options:
• School Nurse Certification Program
