	MATH 152 or ECON/MGMT219	Elementary Statistics ★ or Business Statistics★	3	

IMPORTANT CURRICULUM GUIDE NOTES

This Curriculum Guide is provided to help SRU students and prospective students better understand their intended minor curriculum. Enrolled SRU students should note that the My Rock Audit may place already-earned and/or in progress courses in different, yet valid, curriculum categories. Enrolled SRU students should use the My Rock Audit Report and materials and information provided by their faculty advisors to ensure accurate progress towards degree completion. *The information on this guide is current as of the date below. Students are responsible for curriculum requirements at the time of enrollment at the University.*

IMPORTANT NOTES:

- The QPA for all courses taken in the minor must be at least 2.00.
- A student cannot major and minor in the same discipline/academic area, but may minor in a specialization offered by his/her major department. A minimum of two courses in the minor must be upper division (numbered 300 or above). For each individual student these two upper division courses and at least one other course in the selected minor area must be outside his/her major area requirements or electives counted toward his/her major.
- The information Technology minor must submit this self-maintained progress sheet to the Computer Science Department for verification.

Minor requirements:

- Students must complete at least 6 credit hours in their minor from SRU
- A minimum of 9 credit hours must be upper division (an upper division course includes any 3 credit course that requires a pre-requisite)
- A minor shall be no fewer than 15 credits. A minor requires at least 4 additional credits that are outside the student's major.

★ Indicates this course may have a prerequisite. Refer to Undergraduate Online Catalog.
