HELP PREVENT THE SPREAD OF COVID-19 AND RESPIRATORY VIRUSES:

WASH YOUR HANDS OFTEN AND WITH SOAP AND WATER for at least 20 seconds. Use an alcohol-based hand sanitizer if soap and water are not available.

STAY HOME IF YOU ARE SICK.

COVER YOUR COUGH OR SNEEZE WITH A TISSUE then throw the tissue in the trash. Follow with hand washing or sanitizing. If you don’t have tissue, cough or sneeze into your upper sleeve, not your hands.

AVOID CLOSE CONTACT with people who are sick.

CLEAN AND DISINFECT frequently touched objects and surfaces, such as cell phones, keyboards and doorknobs.

MASKS ARE REQUIRED because yours helps protect your neighbor and theirs helps to protect you. Masks also help you avoid touching your eyes, nose and mouth with unwashed hands.
