

As a junior in high school, Madelyn Hicks searched for a college that would help her become the best individual and professional that she could be. Madelyn was drawn to Slippery Rock University for the Honors College, opportunities available, and the 'this is it' feeling she felt when stepping on campus. Prior to her freshman year at SRU, she decided to join the Honors college and chose to live in the Honors LLC in Watson Hall. In 2019, Madelyn began working in the Honors office as a student worker. During her time in the Honors College Madelyn has made so many memories and had so many opportunities. Some of which include traveling, joining subcommittees, attending events, and meeting many friends!

After completing her undergraduate degree in psychology, Madelyn continued on to a graduate program at SRU for Clinical Mental Health Counseling. Madelyn also accepted the position as Honors Graduate Assistant (GA). As the Honors GA, Madelyn runs and oversees the Honors Mentor program, plans events, works on specialized projects, and assists with Honors Day, Orientations, and Open Houses. Madelyn is excited to continue working on her master's degree in hopes of becoming a clinical mental health counselor.
