The Power of Stories

The Power of Stories webinar series will cover topics such as transformation, leadership, purpose, and identity. The series will be conducted by Jordan Barlowe, University of Toronto, and will explore the transformative power of storytelling and the role it plays in creating awareness, understanding, and empathy.

Diversity Experiences

DEIB has focused on updating policy and addressing microaggressions, as well as creating more inclusive policies and procedures through shared governance. We have also been instrumental in educating Bonners on DEIB topics and issues, helping them to address unconscious biases and grow in both their professional and personal lives.
