

"Living with people that have a similar major makes finding study groups so much easier."

# LIVING-LEARNING COMMUNITIES AT SRU

Living-Learning Communities (LLCs) offer the opportunity to live and learn with other students who share their academic, professional and personal interests. The LLCs are one of many ways to help our students achieve. Students who live in these communities have a higher GPA average than students who do not live in the LLC.

Research supports LLCs, stating that students who are successful academically and engaged socially are more likely to persist and graduate. (Vincent Tinto, Ph.D., Syracuse University)

**Specialty Space:** Most Residence Halls that house an LLC have a Meeting Room with resources just for the LLC Students.
