The waiver does not apply to: Individualized Instruction or Independent Study courses, non-credit continuing education courses, or fees of any kind.

HOW MANY CREDITS MAY BE TAKEN?

In accordance with the AFSCME, SPFPA and SCUPA contracts, employees may take a maximum of six credits per semester. However, while the contracts stipulate that the credits must be taken during non-working hours, with the approval of the supervisor, dean or director, and vice president, employees may choose to take one course during the work day provided employees and supervisors mutually agree to any arrangements needed for making up lost work time as a result of attending class.* If another course is taken, it must be taken after work hours.

*If an employee requests to take a second course that meets during normal work hours, the employee must bear the costs of the second course themselves and have their supervisor's approval to use available, accumulated leave for the duration of the course. Also, the supervisor must certify that such activity has no detrimental effect on the operation of the work area.

During the summer, all sessions combined comprise the summer semester. Therefore, the six credit maximum applies for the entire summer.
