

CONNECTING TO SRU WIFI

MyResNet

To use the residence hall wireless network (MyResNet), you must live in the residence halls and have an account with Apogee on MyResNet. MyResNet should be the primary wireless network to which resident students connect their BYOD. When you are on other areas of campus, you will see the MyResNet wireless network – continue to use it as your preferred or default wireless. If you experience connectivity issues with ResNet outside the residence halls, or if you live off campus, you can access wireless internet in most buildings on campus through the “sru1x” wireless connection.

Sru1x

To use the SRU wireless network sru1x you must have a valid SRU user name and password to logon. Sru1x should be the primary wireless network to which non-residence students, faculty, and staff connect their BYOD. SRU managed laptops provided to faculty and staff should automatically connect to sru1x. sru1x is available in academic, administrative, and dining halls, but is not available in the residence areas of campus.

Srustudent

This wifi network often disconnects and we do not recommend using it. This option is scheduled to be removed from the list of available networks.

SRU-Guest

Visitors and Guests who do not have an SRU username and password should register to utilize SRU-Guest.

RESIDENCE HALL STUDENTS ONLY

WiFi - Connecting to MyResNet

To use the residence hall wireless network (MyResNet), you must live in the residence halls and have an account with Apogee on MyResNet.

MyResNet should be the primary wireless network to which resident students connect their BYOD. When you are on other areas of campus, you will see the MyResNet wireless network – continue to use it as your preferred or default wireless.

- Connect to the MyResNet wireless
- Enter your Apogee user id and password. After you enter your credentials the first time on your device, you will not need to enter them again.
- Contact Apogee ResNet support for assistance with troubleshooting. You will find helpful instructions and phone, chat, and email support information at myresnet.com.

If you experience connectivity issues with ResNet outside the residence halls, or if you live off campus, you can access wireless internet in most buildings on campus through the “sru1x” wireless connection. See separate instructions for connecting to “sru1x.”

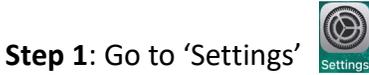

Keep in mind that wireless routers are forbidden in your residence hall room. Please do not attempt to setup or configure a wireless access system (router) in the residence halls.

- Note: the wifi network titled “srustudent” often disconnects and we do not recommend using it. This option is scheduled to be removed from the list of available networks.

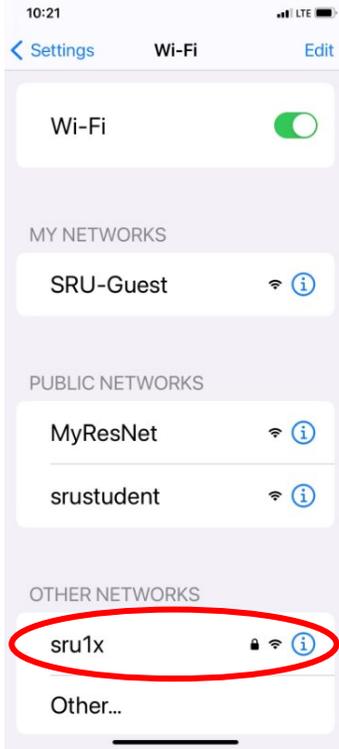

WiFi - Connecting to sru1x

Apple – iOS v16.6.1 (these instructions may vary for older iOS versions)

Mac book and mobile devices:

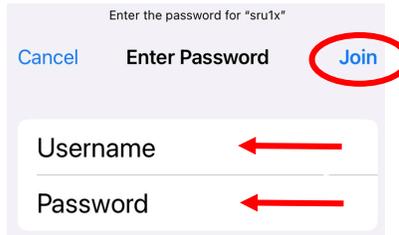

Step 3: Within the list of available networks select 'sru1x'

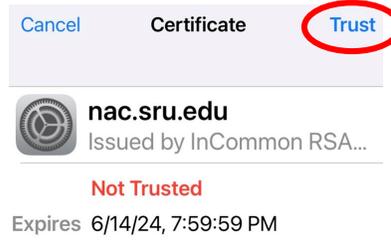

Step 4: Enter your SRU username and password
NOTE: you do **NOT** need to include @sru.edu

Step 5: Select 'Join'

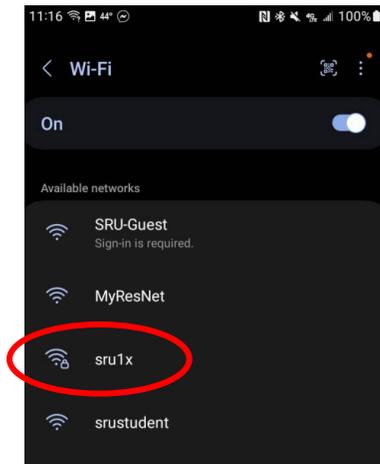

Step 6: Select 'Trust'

Android Mobile devices:

Step 4: Select 'sru1x'

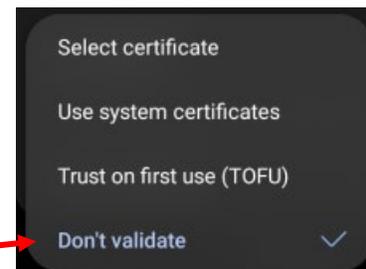

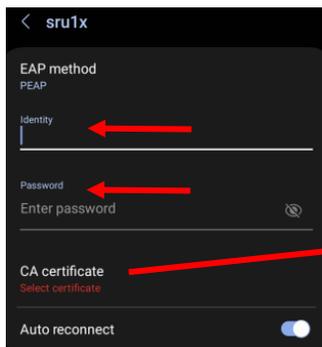

Step 5: 'Identity' enter your SRU username

NOTE: you do **NOT** need to include @sru.edu

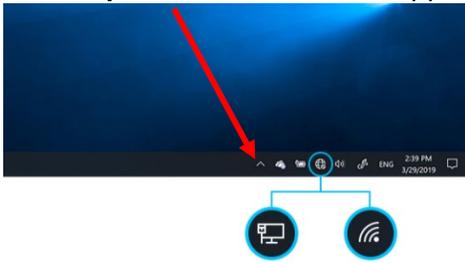

Step 6: Enter your SRU password

Step 7: 'CA Certificate' select 'Don't validate' or 'Use system certificate'

Windows 10 – PC

Step 1: Select the 'Network'  icon on the taskbar. The icon that appears depends on your current connection state. If you don't see one of the network icons (or a similar one) shown in the following image, select the 'Up arrow'  to see if it appears there.

Step 2: Choose the Wi-Fi network 'sru1x'

Step 3: Check the box 'Connect automatically'

Step 4: Select 'Connect'

Step 5: Enter your SRU username and password

NOTE: you do **NOT** need to include @sru.edu

Step 6: Select 'Next'

Chromebook

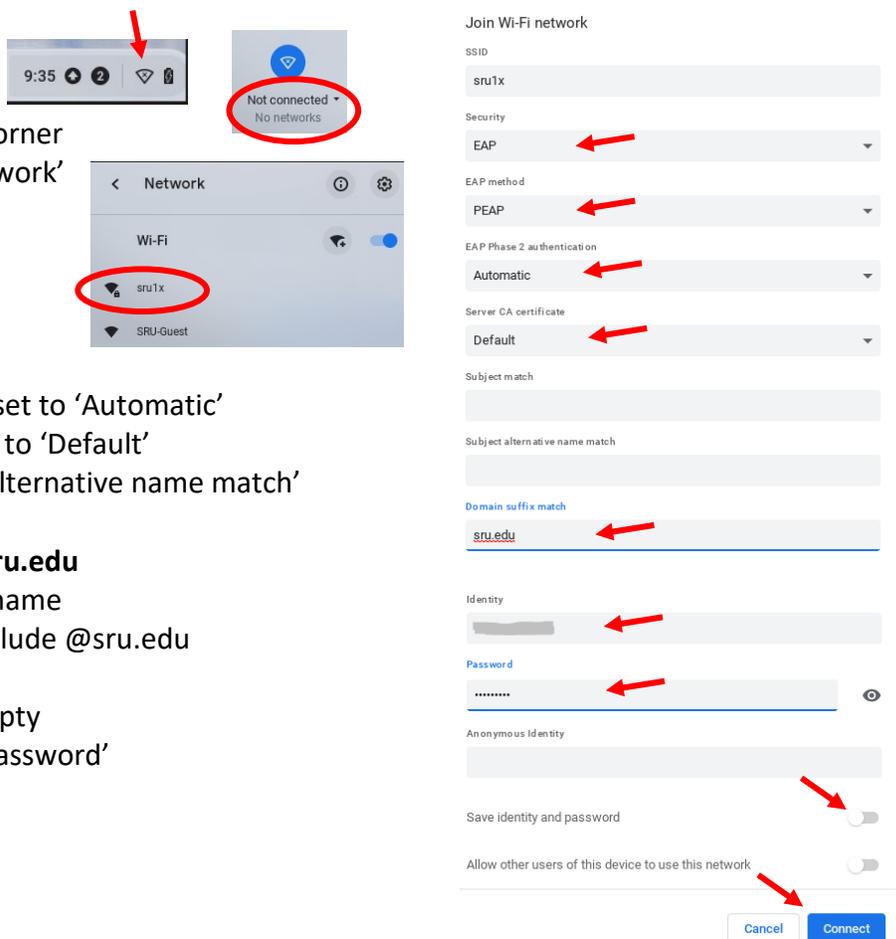

Step 1: Click on the wireless radio icon near the clock in the lower right corner

Step 2: Select 'Not connected' or 'No network'

Step 3: Select 'sru1x'

Step 4: Use the following information:

- SSID will default to sru1x
- Security will be 'EAP'
- Set EAP Method to 'PEAP'
- Leave Phase 2 authentication set to 'Automatic'
- Leave Server CA certificate set to 'Default'
- 'Subject match' and 'Subject Alternative name match' are left blank
- Set 'Domain suffix match' to **sru.edu**
- 'Identity' enter your SRU username
NOTE: you do **NOT** need to include @sru.edu
- Enter your SRU password
- Leave Anonymous Identity empty
- Toggle on 'Save identity and password'
- Select 'Connect'

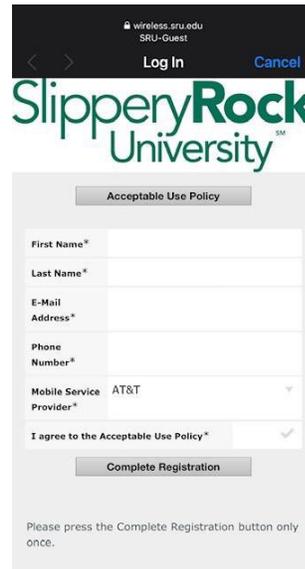

***NOTE - If your device is requesting entry for the following fields, please try the following:**

- EAP Method - PEAP
- Phase 2 Authentication - MSCHAPv2
- CA Certificate - Do not validate or Use system certificate
- User name and password - confirm password is not expired.
- Domain – sru.edu or identity is username@sru.edu or SRUNET\username
- Privacy – Randomize MAC should be disabled

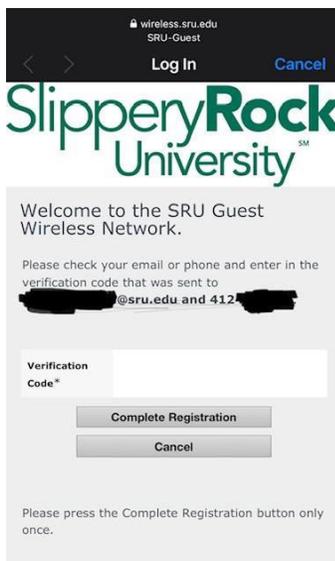

WiFi - Connecting to SRU-Guest

VISITORS/GUESTS – for those who do not have an SRU user name and password

- Connect to SRU-Guest (unsecured)
- Enter name, email address, phone number and service provider
- Place check mark to agree to terms
- Click on Complete Registration (Please only click once)

The screenshot shows the registration form for the SRU-Guest network. At the top, there is a header with the text "wireless.sru.edu SRU-Guest" and buttons for "Log In" and "Cancel". Below the header is the Slippery Rock University logo. The form includes an "Acceptable Use Policy" section with a checkmark indicating agreement. The registration fields are: First Name*, Last Name*, E-Mail Address*, Phone Number*, Mobile Service Provider* (with a dropdown menu showing "AT&T"), and a checkbox for "I agree to the Acceptable Use Policy*". A "Complete Registration" button is located at the bottom of the form. A note at the bottom of the form states: "Please press the Complete Registration button only once."

The screenshot shows the verification code screen. At the top, there is a header with the text "wireless.sru.edu SRU-Guest" and buttons for "Log In" and "Cancel". Below the header is the Slippery Rock University logo. The text reads: "Welcome to the SRU Guest Wireless Network. Please check your email or phone and enter in the verification code that was sent to [redacted]@sru.edu and 412[redacted]". There is a "Verification Code*" input field. Below the input field are two buttons: "Complete Registration" and "Cancel". A note at the bottom of the screen states: "Please press the Complete Registration button only once."

- Enter the verification code received on your phone.
- Code may take several minutes to be received
- Click on Complete Registration (Please only click once)

- If a text message does not arrive immediately, check the email you entered during the registration process

- Note: You may need to click on the Slippery Rock University link to access the network
