

SLO Assessment Outcomes Reporting Template

Program Name: _____

Outcome Name: _____

Planned Outcome Assessment Years:

Assessment Method Type: _____

Assessment Method:

Benchmark/Criterion/Target :

Method Reporting Year: _____

Select One Assessment Method Criterion Were:

- ☐ Met
- ☐ Not Met
- ☐ Partially Met
- ☐ Undetermined Result

Results: *(PROVIDE A BRIEF SUMMARY OF ASSESSMENT RESULTS)*

ANALYSIS OF RESULTS | *(Make meaning of the data(result(s) reported above)*

(Example: At first glance the criteria was met/exceeded, however, a closer analysis of the data reveal that only 40% of students successfully answered questions related to XYZ area of the discipline.)

ACTION PLAN | (Provide a brief summary or outline of how you will use the information gleaned from an analysis of the assessment results for this method.)(Example: The faculty will review the program’s curriculum map at the first assessment meeting of the academic year to determine in what courses and to what depth and breadth XYZ area of the discipline is covered. The faculty will determine where XYZ area of the discipline is introduced, reinforced and assessed, as well as determine what formative and summative assessments are in place that might reveal greater insight into what students are or are not understanding about XYZ area of the discipline. Following the meeting the program faculty will implement changes necessary related to topic coverage and evaluation across the program’s curriculum by Spring 2025.)
