

# SECONDARY MATH/SCIENCE WITH STEM CONCENTRATION

MASTER OF EDUCATION

DEPARTMENT OF CURRICULUM, INSTRUCTION, AND EDUCATIONAL LEADERSHIP

COLLEGE OF EDUCATION

## DELIVERY METHOD

Basic Concentration  
onsite and online  
Advanced Concentration  
100% online

## START TERMS

Fall, Winter, Spring, or Summer

## COMPLETION TIME

Programs can be completed in  
a calendar year if a student begins  
in the summer

## NUMBER OF CREDITS

36 credits

The logo for the Council for the Accreditation of Educator Preparation (CAEP) features the letters 'CAEP' in a bold, green, serif font. A stylized orange and yellow swoosh underline is positioned beneath the letters.

Council for the  
Accreditation of  
Educator Preparation

According to the  
Bureau of Labor Statistics,  
107,420 openings for  
middle and high school teachers  
are projected each year,  
on average, over the  
next decade.

## PROGRAM HIGHLIGHTS

Impact the future and explore the possibilities of teaching by earning a Master of Education in Secondary Education. SRU's M.Ed. in Secondary Education has two concentrations: a basic concentration and an advanced concentration. The basic concentration is for students seeking certification. The advanced concentration is for certified teachers.

SRU's master's degree in Secondary Education offers:

- Flexibility to fit your busy schedule. The basic concentration offers both onsite and online classes, and the advanced concentration can be completed exclusively online
- A 36-credit hour program that can be completed in one calendar year
- Leadership skills geared to advancing your career to the next level
- Specialization in mathematics and science

## BASIC CONCENTRATION

The basic teaching concentration in Secondary Education Teaching – Math/Science is a degree designed for individuals who possess a baccalaureate degree and appropriate coursework in mathematics or one of the secondary science subject areas of biology, chemistry, geology, or physics. Successful completion of the program will lead to a master's degree and can lead to state certification. Students can complete the 36-semester hour program in one calendar year of full-time study, beginning with the summer pre-session and ending with student teaching in the fall or spring. However, students may begin any term.

Often students who apply for SRU's basic track Master of Education Degrees are those interested in changing careers. The Pennsylvania Department of Education (PDE) requires that those who teach English/Language Arts, Mathematics, Sciences, or Social Studies, are highly qualified in their content areas. At SRU there are multiple pathways to prove that you are highly qualified. Once accepted into the program, transcripts from your previous institution will be analyzed for courses in the subject area you will be learning to teach. If you are missing any of the courses needed in that content area, you will be notified of which courses you would need to take to meet the PDE requirements. Alternatively, you are able to show that you are highly qualified by earning a passing score on the PA Content Knowledge Certification Exam for your content area. This test-out option will also be discussed with you, upon acceptance into the program.

## ADVANCED STEM CONCENTRATION (ONLINE)

The advanced teaching concentration in Secondary Education Teaching Math/Science is a Master of Education degree for individuals who already possess teacher certification in secondary mathematics or one of the secondary science subject areas. The program integrates a concentration in Science, Technology, Engineering, and Mathematics (STEM) courses. In addition to core requirements, these certified students will concentrate on individual professional development by electing 12 semester hours of course-work from the areas of instructional design, mathematics/science education, technology, special education, or counseling.

## ADMISSION REQUIREMENTS

Applicants must submit the following materials along with a completed online graduate application and a non-refundable application fee:

### Basic Concentration:

- All applicants must have a bachelor's degree with appropriate course work in mathematics or one of the science disciplines with an overall GPA of 2.80 or higher from an accredited institution of higher education to enter and a 3.0 GPA to exit the graduate program
- Official undergraduate degree transcript(s) and any graduate transcripts
- Resume

### Advanced Concentration:

- All applicants must have a bachelor's degree with an overall GPA of 3.00 or higher from an accredited institution of higher education
- Official undergraduate degree transcript(s) and any graduate transcripts
- Copy of teacher certification
- Resume

## BASIC CONCENTRATION UNDERGRADUATE COMPETENCIES

Students should provide evidence of meeting outcomes in special needs instruction (Slippery Rock University's SEFE 338: Standard-Based Instruction & Assessment in the Inclusionary Classroom and SEFE 342: Educational Psychology for Diverse Learners are essential to meet this requirement).

Students in the basic concentration who meet admission requirements but who have more than three undergraduate deficiencies may be offered conditional admission.

## BASIC CONCENTRATION - PROFESSIONAL LICENSURE CERTIFICATION

All candidates completing this program and student teaching are eligible to receive Pennsylvania certification after achieving a passing or qualifying score on Pennsylvania Department of Education required exam(s). If you are interested in teaching in another state, please contact the Department of Education in that state.
