

Advanced Placement Exams - Slippery Rock University Course Equivalencies

An AP course itself does not guarantee college-level equivalencies. Students must take and successfully pass the AP exam for the appropriate course, with a score of 3 or higher, to receive university credit. Exam scores determine appropriate placement of coursework toward degree requirements. Some academic departments require a score of 4 or 5 to earn major-specific equivalencies. An official AP score report will need to be sent from College Board to Slippery Rock University. Transfer Admissions maintains the ability to substitute coursework toward graduation requirements, wherever possible, depending on student's major.
