*Graduates are included in only one category. Graduates working and attending graduate school indicate the category more important to the professional career path. For example, a person working full-time in field of choice and attending graduate school part-time is most likely to be included in the employment category and not in the continuing education category. A person working part-time and attending graduate school often is involved in the continuing education category and not the employment category.

How we gathered the employment statistics:

In December 2016, we emailed surveys to graduates for December 2015, May 2016 and August 2016. In January 2017 a phone survey was conducted the Office of Career Education & Developments student assistant Ariel Woldman. She contacted graduates who did not respond via email. The office also contacted faculty and used LinkedIn to learn the current status of recent graduates not responding by email or phone. For 98 graduates, office staff knew their status.

The response rate for each method we used to track graduates is below:

Method	Bachelor Degree		Graduate Degree	
	#	%	#	%
Email	211	12	69	17
Faculty	136	8	3	1
Office	98	6	12	3
Phone Call	127	7	47	11
Web	438	26	72	17
No Response	702	41	209	51

Acknowledgements: We appreciate the contribution of numerous people who made this is report possible:

- * **Bryan Fuhs**, Institutional Research, provided the Excel file with the academic and contact information of all the graduates from 2015-2016. He also managed the email response portion of the survey and **Susan Elwell** designed the excel pivot tables which extracted the specific data for this report.
- * **Lisa Theodorson**, entered survey data, managed the responses and edited the report.
- * **Ariel Woldman**, student assistant, contracted graduates' by phone in order to obtain survey information.
